Project Demo Planning

Date	23 October 2026
Team ID	0827CY231053
Project Name	Waypoint - AI Travel Itinerary Planner
Maximum Marks	1 Mark

Project Demo Planning

Proposed 10-minute demonstration of the Waypoint workflow. Prepare a local working instance, a saved trip and a fresh registration account before presenting.

S.No	Demo Section	Description	Duration (mins)
1	Introduction	Explain fragmented trip research and the intended traveler.	1
2	Solution overview	Show the React/FastAPI/storage architecture and optional AI.	1
3	Ready-made itinerary	Browse a template, review its days and save a copy.	2
4	Custom planning	Enter destination, dates, budget and style; generate a plan.	2
5	Trip management / sharing	Show timeline, activity edits, public link and Markdown/ICS export.	2
6	Recommendations and Q&A	Show Ideas; summarize limitations and future roadmap.	2

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Describe research overhead and generic itineraries.
2	Solution Overview	Explain curated templates and personalized planning.
3	Live Feature Demonstration	Use a short trip; keep a saved itinerary ready if AI is slow.
4	Q&A Session	Distinguish implemented features, estimates and planned future work.

Preparation

Check /api/health, start the frontend, verify login and prepare a share link. The public deployment URL and a recorded video are not supplied.
